## MESSAGE FROM OUR POTENTATE

With January already behind us, I have come to realize that the time spent in the Potentate's office is short. To accomplish what needs to be done this year, I am asking that the members of Moslem "kick it into high gear" and begin to drive our agendas of increasing membership, promoting our activities and to assist with ideas for additional fundraisers.

For those that are active on social media, we need your help in sharing the Temples posts on Facebook, Instagram, etc. in order to reach more people than we ever have before. If you are not on social media, then speak to your friends, neighbors, and coworkers about the Shrine and the Shriners Hospitals for Children. Wear your Shrine apparel to promote the Shrine and to possibly open a dialog with those around you because if non-Shriners are not aware of what we are doing or how they can become involved, it limits our ability to thrive.

February will see two of our biggest events, the Sportsman's Raffle and the all new Shrine Circus both taking place at Suburban Showcase in Novi. I want to thank all those involved for their hard work and dedication ensuring that these events are a success – Mike Zelmanski and his team for the Raffle and Craig Stigleman P.P. and his team for the Circus.

As always, it takes a great number of people getting together and pushing for a common goal to be successful.

Jeff Geske

# FAMOUS SHRINERS

Sweetwater Shrine Club  
Search: Famous Shriners

In 1870 a group of Masons gathered frequently for lunch at the Knickerbocker Cottage on Sixth Avenue in New York City. At a special table on the second floor a particularly fun-loving group of men met regularly. Among the regulars were Walter M. Fleming, M.D. and William J. "Billy" Florence, an actor. The group frequently talked about starting a new fraternity for Masons – one centered on fun and fellowship, more than ritual. Fleming and Florence took this idea seriously enough to do something about it.

Billy Florence had been on tour in France, and had been invited to a party given by an Arabian diplomat. The exotic style, flavors and music of the Arabian-themed party inspired him to suggest this as a theme for the new fraternity. Walter Fleming, a devoted fraternity brother, built on Fleming's ideas and used his knowledge of fraternal ritual to transform the Arabian theme into the Ancient Arabic Order of the Nobles of the Mystic Shrine (A.A.O.N.M.S.).

With the help of the Knickerbocker Cottage regulars, Fleming drafted the ritual, designed the emblem and costumes, formulated a salutation and declared that members would wear the red fez.

The first meeting of Mecca Shriners, the first temple (chapter) established in the United States, was held September 26, 1872. As word got out about the fledgling organization, membership grew rapidly, spreading across the U.S. In the early 1900s, membership spread into Canada, Mexico and Panama. Today, Shriners International is a fraternity with nearly 200 temples in several countries, thousands of clubs around the world and hundreds of thousands of members dedicated to the principles of brotherly love, relief and truth.

# CHILDCARE

## Nobles All - Greeting

From time to time, I am questioned about what Shriners Hospitals for Children can or cannot treat. I have attempted to compile a very comprehensive list.

Since our first hospital opened its doors in 1922, providing care for pediatric orthopaedic conditions has been a foundation of Shriners Hospitals for Children. We can help children with essentially any orthopaedic condition, other than an acute trauma.

## Orthopaedic Care

Shriners Hospitals for Children is dedicated to providing medical and rehabilitative services to children with congenital deformities and conditions, problems resulting from orthopaedic injuries, and diseases of the neuromusculoskeletal system.

## Innovative treatment and therapies

The majority of our locations provide pediatric orthopaedic care. Commonly treated conditions include:

- Clubfoot
- Hand disorders
- Limb deficiencies/discrepancies
- Legg-Calvé-Perthes disease and other hip disorders
- Scoliosis (curvature of the spine)
- Osteogenesis imperfecta (brittle bone disease)
- Juvenile idiopathic arthritis
- Orthopaedic problems associated with cerebral palsy and spina bifida
- At 12 of our locations, the orthopaedic physicians and clinical staff have access to motion analysis centers. These high-tech facilities use a system of reflective markers, high-speed cameras and computers to develop a model of a child's walking pattern that can provide data to assist the medical team in recommending the best treatment plan.

## Pediatric Orthotic and Prosthetic Services, LLC

In addition to innovative treatments and therapies, several Shriners Hospitals for Children have in-house pediatric orthotic and prosthetic services (POPS) departments. The POPS teams fabricate custom-fit devices in kid-friendly environments. Collaborating closely with physicians, nurses, and occupational and physical therapists, the best possible outcomes are achieved for their patients.

## Services to support optimum health and independence

Our goal is to help each child become as healthy and independent as possible. We are dedicated to providing a complete range of appropriate medical and rehabilitative care to achieve this objective, including surgeries; physical, occupational and recreation therapies; and orthotic and prosthetic services.

At Shriners Hospitals for Children, each patient receives an individualized care plan incorporating the full range of needed multidisciplinary services, always incorporating the patient and family's goals and addressing their concerns.

## Burn Care

The Shriners Hospitals for Children locations that specialize in burn injuries have been leaders in burn care, research and education since opening in the mid-1960s. Thanks to the cutting-edge medical care provided at these hospitals, thousands of children have a greater chance of surviving from all types of burn injuries every year.

# CHILDCARE Continued

**Shriners Hospitals  
for Children®**  
**Love to the rescue.®**

## **Burn care and other specialized services**

The Shriners Hospitals specializing in burn care provide critical, surgical and rehabilitative care to children with varying degrees of new and healed burns. Each state-of-the-art hospital is staffed and equipped to provide reconstructive and restorative surgery for healed burns, as well as treatments for various other skin conditions. Three of our four locations that provide burn care also treat cleft lip and palate.

The range of treatments needed by patients with burn injuries can include skin grafting procedures, continuous enteral feeding, infection control and procedures to lessen the effects of scarring. In addition, aggressive rehabilitation is typically necessary, including therapy to improve range of motion, and the use of specially fitted garments, splints and other orthotic appliances to improve the patient's ability and appearance. Once a patient has recovered sufficiently to return to their homes and communities, Shriners Hospitals for Children helps to ensure a smooth transition through its readjustment and re-entry programs.

The medical staff at Shriners Hospitals for Children is renowned for their expertise in critical care, particularly in techniques that may help save the life of a patient with severe burn injuries – such as fluid resuscitation, management of smoke inhalation, early excision and skin grafting, and management of increased metabolism.

Since Shriners Hospitals for Children entered the burn care field, the survival rate for children with burns over more than 50 percent of their body surface has doubled. In addition, today, patients with burns over 90 percent can survive, and go on to lead full, productive lives.

## **Spinal Cord Injury**

Each year 12,000 new cases of spinal cord injury (SCI) are reported throughout the U.S. Approximately 10 percent affect children under age 16. In the mid-1980s, Shriners Hospitals for Children established the nation's first SCI rehabilitation programs specifically designed for children and teenagers.

## **Innovative care contributes to recovery**

At Shriners Hospitals for Children, an interdisciplinary team of surgeons and other physicians, therapists, therapeutic recreation specialists, psychologists, social workers and dieticians work together to provide individualized, comprehensive care plans for our patients with SCI. In addition to providing treatment, our staff works with the patient's family members to help them understand the social, emotional and developmental implications of an SCI to help ensure the best possible outcome for the child, including the ability to have a full, productive life.

Innovative therapies offered at Shriners Hospitals for Children include body-weight supported manual treadmill training or robotic treadmill training with the Lokomat, a device that automates movement therapy and improves the efficiency of treadmill training in patients with neurological movement disorders, such as spinal cord injury. Both of these therapies provide weight-bearing opportunities and can help stimulate muscles and build strength and stamina.

Our programs also offer functional electric stimulation (FES), which is a sophisticated, computerized system that sends small doses of electrical current to peripheral nerves, stimulating paralyzed muscles. FES can be used with specialized bikes to provide an opportunity for exercise.

We also emphasize activity-based rehabilitation, including aqua therapy, pet therapy and adaptive sports. These activities also increase strength and stamina and enhance social interaction, confidence and independence.

## **Emphasizing independence and confidence**

In addition to exercise and therapy efforts, we offer a range of experiential programs designed to increase independent living skills, build confidence and strengthen self-esteem.

The health care system's SCI program is designed to provide the complete range of services needed to ensure patients recover to the greatest extent possible.

# CHILDCARE Continued

## Cleft Lip / Cleft Palate

At Shriners Hospitals for Children, patients with a cleft lip and/or palate are treated by a multidisciplinary group of specialists who work as a team to improve the child's appearance and their ability to eat, breathe and communicate. Each patient's unique treatment plan may include surgery, orthodontics, hearing, speech and psychological therapies, along with specialized support. The goal of the Shriners Hospital treatment program is to help each child achieve optimal function, improve their facial appearance to the fullest extent possible and restore their self-esteem.

Cleft lip and palate deformities are one of the most common birth defects in the U.S., occurring in approximately one of every 600 births. Clefts occur when the tissues that form the upper lip and roof of the mouth fail to join together before birth. Cleft deformities vary in size and because the lips and palate develop at different times, it is possible for babies to be born with a cleft lip only, a cleft palate only, or both. The condition is associated with alterations in oral function including eating, speaking and hearing due to problems with growth and structure of the face. Cleft lip and palate is corrected by reconstructive surgery in conjunction with multidisciplinary therapies.

Cleft lip and palate is a common and serious condition. Shriners Hospitals for Children is committed to improving care for children with this condition through a comprehensive, coordinated program of clinical excellence, education and research.

Care for cleft lip and/or cleft palate is currently available at nine Shriners Hospitals for Children. Available multidisciplinary services include surgery, orthodontics, hearing, speech, psychological therapies and additional support services. Services may vary at different locations.

### Our mission

Shriners Hospitals for Children has a mission to:

- Provide the highest quality care to children with neuromusculoskeletal conditions, burn injuries and other special healthcare needs within a compassionate, family-centered and collaborative care environment.
- Provide for the education of physicians and other healthcare professionals.
- Conduct research to discover new knowledge that improves the quality of care and quality of life of children and families.

This mission is carried out without regard to race, color, creed, sex or sect, disability, national origin, or ability of a patient or family to pay.

### Our vision

Become the best at transforming children's lives by providing exceptional healthcare through innovative research, in a patient and family-centered environment.

Should you have any questions regarding Shriners Hospitals for Children and or treatment provided, feel free to contact me at 313 806 9475 or by e-mail at [lpssc2004@yahoo.com](mailto:lpssc2004@yahoo.com)

Until we meet again.....

# SHRINE LANCERS

Hello Lancers,

I hope you all had a great Christmas and New Year holiday this year. I'm sure we are all excited to see what 2019 will bring for us. It is already off to a great start with the Sportsmans raffle just completed and the circus just around the corner.

On behalf of myself and all of the Lancers, we would like to congratulate and thank Bob O'Brien and Judy for all that they've done for Moslem and the Lancers this past year. Bob has proven to be and HUGE asset to Moslem and all of the nobility in it. He has also shown his enthusiasm and commitment to the Lancers and we are very happy to welcome him to the ranks of the prowlers. Thank you Bob and we look forward to many more years of fun times ahead with you.

Congratulations to Jeff Geske on becoming our Potentate for 2019.

Well, we had a lot of fun at the raffle a week or so ago. More on this event will come in the March edition of the article, as we will have more details and pictures from the raffle.

Sick report: Jim R. is on the mend from a battle with pneumonia. He became ill a few days after the X-mas party in December. Judy O'Brien is battling a tough go with shingles. Anyone who has had shingles before can understand the pain and discomfort she is dealing with. We are thinking of you Jim and Judy and hope for a speedy recovery. Please say a prayer for Jim and Judy as they make a quick and full recovery as soon as possible.

A BIG "THANK YOU" goes out to Eugene for providing the unit with the tickets for our drone that was raffled off at the raffle a couple weeks ago.

We had a fun time at our Christmas party at the Rhapsody Club. Thank you Cliff for organizing this evening for us again this year. There should be a couple pictures from the dinner with this article. Fun was had by all.

Keep an eye on your emails for upcoming events. A list for the year will come soon, if it hasn't already came.

The Lancers are again in charge of ticket taking at the circus Feb. 14-17<sup>th</sup>. If you can help out, please call Matt P. and let him know. We will be indoors this year, so it will be a little nicer. Thank you.

Let's get a nice turn out for our next Lancer meeting on March 4<sup>th</sup>. We've had a lot of people at our meetings lately and it's a great night to see fellow Lancer members once a month.

To all NEW and Experienced Shriners, here is your chance. If you have been looking for that one unit that you would like to belong to, look no further. Come to the Lancer room on the first Monday of each month and meet the guys. You will have the time of your life driving a Lancer car in the parades. Contact myself, Matt P. or Dave Talbot for information and make a decision that I know you won't regret. Come join one of the fastest growing units in Moslem and become a Lancer today!

Until next time, keep your engines runnin.

Todd Wyber

# Daughters of the Nile

Happy Valentine's Day

The Shriners Handmade Custom Quilt drawing was held on December 9 2018, at the child care Christmas party. Congratulations to the winner Nicholas Leppard Moslem Temple. Thanks to all who purchased tickets and gave donations.

Sixteen of us got together at Sandy's by the Beech for a wonderful lunch, good company and a enjoyable afternoon. Millie Spaw was there with her daughter Dorothy Stone, Millie was given a Stepping Stone in honor of her years of service as chaplain. Her daughter Dorothy is going to be bringing her to our sessions and is also interested in becoming a member.

Our next meeting is February 11, 2019. Lunch will be provided by the Huron Valley Nile club at 11 AM with the session to follow at noon. I'm looking forward to seeing our members join us for the afternoon. Until then, keep safe and healthy.

Buzzing for the Kids,

Sheila McWilliams, Queen

## PAST MASTER UNIT

The Past Master Unit is the bridge between the Blue Lodges and Moslem Shrine Temple that portrays the Second Section of the Master Mason Degree in Blue Lodges when called upon. Nobles may belong to the Past Masters Unit and still belong to another Unit. We meet at the Shrine Center on the third Monday of the month at 7:00 P.M. except during the months of July and August. If you would like to join us or have any questions, you may call me at my home, 248-488-9711.

Our ranks have fallen short on manpower in the last few years because of age, illness and death. If you are a Master or Past Master of your Lodge, please come to one of our Unit meetings and discover the friendship, fellowship and camaraderie, and join us as we portray the 2nd Section of the Master Mason Degree at local Masonic Lodges. Also, we would encourage any Past Master who is not a member of Moslem Shrine Temple to come and join Moslem and partake in all the benefits of being a Shriner.

We are looking forward to attending the Shrine Circus, February 14th to February 17th at Suburban Showplace, Novi. The 3 ring circus will be held in the new building indoors at Suburban. Parade season is fast approaching, and the Past Master Unit is anticipating a good turnout of its members to ride the float that portrays A Masonic Lodge and promotes Masonry. Our February meeting will be held on Monday, February 18th. Please come and join us.

We are always looking forward to the future.

John Thornhill, P.P.

Director

## Lakeside Shrine Club

Hello Fellow Lakesiders!

By the time you read this, we've received a newly installed line of Divan officers, endured arctic temps, survived the Winter Sportsman's Raffle and quite possibly have been to the Detroit Shriners Circus at the all new Shriners Auditorium at the Suburban Collection Showcase. Despite the cold weather temps, things are heating up at the Shrine temple.

Lakeside Shrine Club is no exception. In an attempt to capitalize on the very successful Winter Sportsman's Raffle, we have pulled together our own raffle item; a 10" gas powered ice auger! It is our hope that we are able to drill up some funds to donate to our local hospitals.

On Wednesday February 13<sup>th</sup>, the annual Sweet Hearts dinner takes place as the Jefferson Masonic Lodge starting at 6am. Reservations will be accepted through February 6<sup>th</sup>. Dinner, raffles and a special guest have been planned for your enjoyment. Members enjoy \$5 off the regular price of admission for themselves and their Ladies!

Our next business meeting has been set for March 20<sup>th</sup>, 2019 at 7pm in the Jefferson Masonic Lodge located at 22000 Eleven Mile Road in St. Clair Shores. Upcoming topics will include the results of our Sportsman's raffle table and the planning of our annual Poor Man's Dinner. Your club and its members need your input, so plan on attending.

Warmest regards,

Rick Gaines  
Lakeside Shrine Club  
Secretary

**CONGRATULATIONS!!!!**

Bob O'Brien was elected to serve

## Shriners Hospitals for Children —

### Erie recognized as one of the Best Places to Work in Healthcare in 2018

Shriners Hospitals for Children — Erie has been selected by Modern Healthcare as one of the 2018 Best Places to Work in Healthcare. Modern Healthcare will publish ranked lists of the 2018 Best Places to Work winners as a special supplement to the October 1 issue.

“Whether on the frontline or in the top office, healthcare employees witness moments that can either inspire or dishearten them. That can take a toll on an individual and healthcare organizations must take extra steps to ensure that highs and lows during the workday don’t impact engagement or performance,” said Modern Healthcare Editor Aurora Aguilar. “This year’s Best Places to Work, voted on by the employees themselves, exemplify what it takes to maintain dedication and satisfaction among its employees, and that is the key to good patient care.”

“We are so proud, excited and honored to be selected as one of Modern Healthcare’s 2018 Best Places to Work in Healthcare. This achievement provides tremendous national recognition for our staff and demonstrates their commitment to Shriners Hospitals for Children — Erie, making this a great place to work and a great place to care for kids,” added Mary Jane Antoon, administrator, Shriners Hospitals for Children — Erie.

This award program identifies and recognizes outstanding employers in the health care industry nationwide. Modern Healthcare partners with the Best Companies Group on the assessment process, which includes an extensive employee survey.

### Shriners Hospitals for Children — Cincinnati once again earns designation as Cleft Palate Team by ACPA

Shriners Hospitals for Children — Cincinnati is pleased to announce that the American Cleft Palate-Craniofacial Association (ACPA) has renewed its five-year designation as a Cleft Palate Team.

Facial clefts are among the most common birth defects, occurring in one of every 600 births in the United States. Clefts of the lip and palate (CLP) occur when these sections do not completely fuse during pregnancy. A child with CLP will require ongoing care that includes plastic surgeons, audiologists, speech language pathologists, dentists and orthodontists as well as psychologists and social work care managers. The ACPA designation indicates that the Cincinnati Shriners Hospital is proficient in providing this consistent care for its patients.

“This designation is the result of the hard work of our multidisciplinary team members, each of whom is committed to addressing the physical, psychological and developmental needs of our patients; we are grateful for this public recognition,” said Kathy Zaeske, director of patient care services.
